

ABOUT Phoenix VOIP

Next Generation Communications Solutions

OUR MISSION

To deliver full featured, next generation business communications services to our valued customers with the highest degree of value, integrity, service and support.

ABOUT Phoenix VOIP

Based in Phoenix, Arizona, Phoenix VOIP is a licensed US VoIP servicer provider that has become an integral part of our community serving businesses since 2015. Through our US based partnerships, our service now reaches beyond our local markets across the US and Canada.

ABOUT OUR NETWORK

Superior voice quality and unparalleled service uptime is our primary focus for our business customers. We deliver amazing voice quality through our two Geo-redundant data centers located in New York, NY and Dallas, TX. With all endpoints dual registered at both facilities, we mitigate any chance of service failure or any potential extended service outages. Investing in this infrastructure and managing the network with skilled, industry telecom professionals ensures we deliver a higher level of service to your business all day, every day, 24/7/365.
