## CAVEAT

*The FINAL COMP here is very rough direction. It is NOT intended to be a literal translation of our input. Rather, we offer it to 1) Make your job easier to know exactly what we are looking for; and 2) Save time for us as we communicate back and forth. As just one example, the Halo/Glow effects behind the light and under TRUTH & LIES are crude and not meant to be absolute direction. Use your creative judgement to address those needs.*
