

## DESIGN BRIEF

- 8 faceless, abstract, watercolor African American angels (no wings please)
- Although their kind of abstract looking, I reallyyyy LOVE how realistic these still look, as well as their poses, jewelry, different styles of dresses and body shapes
- I'd like 6 of them to be adult women and the other 2 to be younger girls (like example pic below)
- Please vary their skin tones, I'd like shades from light skinned to dark skinned.
- Hairstyles can vary...anything from afros, to dreadlocks to ponytails to just down curly should be fine...I'm pretty open(--The detailed backgrounds are not as important to me as the detail and artistry of each angel. Ultimately, I would like

them to be able to be used alone OR used together as group (like the example picture below to the right)

...and thank you SO much [in advance]!!!
