A few things that set us apart ...

HISTORY

Established in 1964 – originally as the internal flight department for the Chrysler Corporation – We are now under the ownership and nearly century-old air transportation legacy of Edsel B. Ford II. Servicing both regional and global travelers from Oakland County International Airport in Waterford, Michigan; Pentastar Aviation is the premier aviation provider in Southeast Michigan, providing **FBO Services, Advisory Services, Aircraft Management, Private Jet Charter, and MRO Services.**

For over 50 years, our focus has remained on setting the standard in aviation services. This focus enables us to serve a wide spectrum of customers including privately held and publicly traded companies, as well as Fortune 100 customers, air ambulance providers, and some of the most dynamic business people of this time. Having the only privately held jet bridge in the U.S. also allows us to accommodate larger aircraft, higher passenger counts, professional sports teams, and international groups. Our FBO is also one of a few DCA Approved Gateways, which allows direct access into Ronald Reagan Washington National Airport, enabling us to cater to heads of state as well. It is no wonder we are one of the most awarded private aviation companies in the country!
