

The Top *7* Reasons that Make Concierge Companion Care Different from *OTHER* Home Care Agencies and Ultimately Solve Your Frustration and Dissatisfaction with the Home Care Field

Reason #1: You, or your loved one, will be taken care of by kind, attentive, experienced, and knowledgeable caregivers. Not by someone who can't communicate in your language or "who took care of his or her parents on weekends", or who lives on their cell phone instead of paying attention to her client.

Reason #2: We give our clients the best possible experience. Too often, people get 'stuck' in their homes either through mobility issues or depression. We help them to live life again, to go places and renew friendships that they thought were impossible.

Reason #3: My team members are hand picked for each client to ensure a great fit and a kind and caring experience. Every team member *always* has a warm smile, a willing attitude, an open heart, and genuine concern and for their clients.

Reason #4: We offer a customized plan of care to help you reach your health goals. Upon our initial interview, the clients' goals are intently listened to and a plan of action is formulated to make their goals a reality.

Reason #5: We take all the stress and anxiety out of wondering if you or your loved one is getting the quality of care that they deserve. If you are out of state or challenged by a busy lifestyle, you will never need to worry again about the care they receive. All of our caregivers have gone through extensive safety clearances.

Reason # 6: We deliver *5* star, Ritz-Carlton style service. Our customer service is unparalleled. Our main focus is your loved one, to deliver the absolute best personalized care. We go above and beyond in caring for our clients. Make sure you read the P.S. to read *another* raving review from one of my many clients.

Reason #7: We treat you or your loved one with dignity and respect. You and your loved one *deserve* the utmost dignity and respect in your time of need.

Your High-End, Concierge Caregiver...

Wendy Albino

"I enjoyed having Wendy with me for a week and a half in my Chicago home! I had a bad fall, and after a few days in the hospital, Wendy came and cared for me. She has an extensive medical knowledge and great experience with patients. Best of all, she has a lovely sense of humor and a beautiful smile. Those are great healers!" – Rowena Kelly, Illinois
