

Notes:

- Must have the words 'MJE research consulting' (the company name)
- MJE must be in capitals
- There is medical (clinical) focus to the work and we would favour designs that capture this
- Ideally We would like it to work on both contrasts (i.e light on dark, dark on light)
- Would ideally have a small icon in the design

Other logo styles we like the look of:

MJE research consulting- needs a striking logo

We are a new research consulting venture that provides expertise in medical research.

An 'MJE research consulting' logo we would like to see the company name ('MJE research consulting') together with a small graphic element.

We have uploaded a file with some logos/designs that are in the style we like.
