Prepaid Financial Services Limited is regulated and authorised by the Financial Conduct Authority, registration number 900036. Registered Office: 36 Canaby Street, London, W1F 7DR.

## Company

Next Wallet Ltd is a payment solutions company based in Malta. It operates since 2015 and specialises in custom 'white label' prepaid credit card programs on the Mastercard circuit.

The company has extensive experience in planning, building and running specialty credit card programs in partnership with the largest European prepaid CC issuer (PFS, [www.prepaidfinancialservices.com](http://www.prepaidfinancialservices.com)).

NW Ltd holds an FCA agent registration and all the necessary compliance and regulatory authorisations, including SAQ for its client interface. Based on the underlying licenses and passporting, its credit cards are cleared for sale in all EEA (European Economic Area) countries. The company works routinely with issuers' compliance department, auditors and regulators and over several years has a spot free record in complying with its obligations.

The founders and managers have extensive experience and a pristine track record in IT, tech development, the banking and securities industry.

Management and support functions are in place and working (IT, client support, program management, design, logistics, compliance).

The company specialises in niche, high added value products with a provable record of profitability.

# Products

## Top Card

[www.next-wallet.com](http://www.next-wallet.com)

A prepaid 'Black Card', unique in the European product market, marketed to a High Net Worth Individuals market. It offers best in class limits and flexibility and has an established network of partners and promoters. The program is live.

## Next Card

[www.next-card.eu](http://www.next-card.eu)

A combination of multicurrency card (5 in the same plastic: EUR, USD, GBP, CHF & PLN) and online accounts (EUR with IBAN and GBP with sort code and account nr.) that gives cardholders the possibility to send and receive bank transfers, exchange currencies in real time online and make payments in each of the currencies.

Next Card allows partners to build a customised subprogram with great flexibility in card design, volume of cards, revenue sharing model etc and its online consumer interface is going through a redesign that will match the capabilities and 'look & feel' of the best platforms of the market. The program is live.
