Task Description / Requirements for Logo

Our Services:

Compima GmbH offers support of development of two different "Code"-Areas

1. Technical Code:

Technical requirements Engineer and/or product owner with full stack developer experience

2. Human Code:

Development of Personality and interior condition, inner work and growth, potentialanalysis, human resources-projects

Our Clients:

Both of us developed a multi-perspectivity based on our education and experience leading to the ability to work with many different stakeholders in the topics such as technology, economy, psychology and inner growth.

Technical Code: small/medium/big sized companies in temporary need for technical analysis supporting a development team, eg relaunch of a complete website, integrations of complex systems, digitalisation of processes or implementation of mvp's.

Human Code: Individuals in need of orientation or change of behaviour or job, small/medium sized companies who want to elaborate and develop the personal growth of their employees/leaders, human resource manager

Our Values / Competences

Co-Creativ and Co-Operativ

Agile – Future-Oriented

Professional, Competent and easygoing/uncomplicated

Flexible, reliable and solution-oriented

Optimistic, Highly-Motivating with a good dose of humour

Logo Text / Colour

We need the Logo especially for the Website/Social Media

The "GmbH" not necessary needed in the Logo.

Logo could be similar to this one already existing for the part "Human Code":
