

I can go up to a 4 color screen print. to was thinking ink colors could be black, white, blue and orange on the front I only have two flashes so the blue and orange can't tuch. Maybe just black and white on the back.

Customer wants the back to look like this

and front to look something like this but cooler

here was last years shirt

shirt does not have to have car on it but here is a picture anyways

and the things I got from the wrap guy to work with
