

# Design Brief

## Description:

Please make a katana t-shirt similar but not an exact replica to the main image to the left. The design is for a t-shirt.

I want it from the back of the t-shirt and the word in the middle I want it to be in Arabic but in Japanese style just like in this picture.

The word that's in the middle is (قمائن) (which it's mean fabric in Arabic). I want it to be the same font in the picture on the right.

In the front of the t-shirt I want you to put the word (سلام) (which mean peace in Arabic) in the middle horizontally. Also make in Japanese font style but in different font. Similer to this picture.

And this

word is (هلا) which mean hi in Arabic with Japanese font style. I have attached some fonts Pic's to be an inspiration. Use your own created license and have fun. But it should be a white background color.

Thanks
