

Be Your Own... Book Cover Instructions

I have attached a couple files to show examples of what I am looking for, including a mock up of a design I did myself called "Current Book Cover Designed by Myself" to give an idea of what I would have went with if I designed it myself.

I really want a BOLD Typography type design that interweaves the title of the book with the subtitles as shown.

Colors: I am open to colors but am slanting towards a Dark/Navy blue background with white and yellow blend of lettering. But again, open to designers designing.

The book is called:

BE YOUR OWN...

BOSS, BRAND, BUSINESS

Subtitles:

TO GET FROM WHERE YOU ARE TO WHERE YOU NEED TO BE

THIRTEEN STEPS TO MANUFACTURE SUCCESS

Book Description for the Back:

What does it take to be a leader? Ever wonder what makes a leader worth following? Can you be a successful leader in 2020 and beyond? Be Your Own...answers those questions and many more.

There is one thing our world revolves around, and that is time. From when we get up in the morning until we go to bed at night, we are constantly in a race against it. Unfortunately, you don't get a refund on wasted time, but we still must position ourselves each day to succeed in our personal life and professional career regardless. Fortunately, Be Your Own... is written and designed by Nick Jarman, combining his decades of experience and information so you can focus on what matters most in your leadership journey, your time.

As an expert in leadership and organizational behavior, Jarman has a unique perspective on life having glanced down from the mountaintop and looked up from the valley throughout his life, and in this book he has put his learned leadership perspectives together for everyone to read.

This book is a blueprint to get from where you are to where you need to be, not just in life but in business as well. It focuses on architecting the plan to be your own boss, business, and brand. At the same time, each chapter provides exceptional insights, actionable solutions, and "I wish I knew" from Nick. Be Your Own... lays out thirteen steps to manufacture the success we all hope for and desire.

So, whether your just starting your professional career, feeling stuck in a job you do not have a passion for, or heading toward retirement, it is never to late to be your own boss, business, or brand.
