

### Standard 3.25" x 4.5" Template

The best way to think of a packet is a series of connected boxes. Ignore the "curves" and slants when setting up a packet and concentrate on fitting the specifications within the boxes.

**PLEASE DO NOT ALTER THIS TEMPLATE IN ANY WAY!  
THANK YOU!**

Extend Background art to this line for an all-over Bleed on flaps and back. 7" X 5.25"

'Maximum Copy Box' (Inner Box): 3" x 4.25"  
Note that this box is exactly 1/8" smaller than the actual packet size (Fold Line Box). **All important copy (logos, prices, weights, text...) must fall 1/8" inside the fold lines on all 4 sides.**
