

# New Sign-Up Flow

Nigam D. Shah

The user can go into each category and fill out information about themselves, or integrate with an API that does.

The user can go into each category and fill out information about themselves, or integrate with an API that does.

The image shows a mobile application interface on a smartphone. At the top, the status bar displays the time 9:41, signal strength, and battery level. The app's title bar is white with the text "Places I've Lived" in black. Below the title bar is a light gray rectangular area containing a list of cities, each with a checkbox to its right. The cities are Chicago, Madrid, Paris, Rio de Janeiro, and London. The London entry is highlighted with a white background. Below the list is a search bar with the text "London, United Kingdom". At the bottom of the app interface are two buttons: a blue button with the Facebook logo and the text "Connect with Facebook", and a blue button with the LinkedIn logo and the text "Connect with LinkedIn".

9:41

## Places I've Lived

Chicago	<input type="checkbox"/>
Madrid	<input type="checkbox"/>
Paris	<input type="checkbox"/>
Rio de Janeiro	<input type="checkbox"/>
Londo	

**London, United Kingdom**
