It took Ken almost 3 decades of trial and error, and false hope, for him to arrive at the same conclusion that leading experts in the field of bioenergetics had been saying since the beginning: **energy drives biochemistry, not the other way round.**

"In essence, NES gives you night goggles on what is going on for you, moreover what you can do about it. This is truly the future of medicine"

He has adopted the NES Health approach to supporting his programs that lead clients to uncover what is holding them back from their health goals, and integrates complementary frameworks drawing on his diverse trainings and experience in.

Ken is a certified NES Health Practitioner, Functional Diagnostic Nutrition Practitioner, Human Potential Coach, Psychological Fitness Coach, Primal Blueprint Coach and a Heart Math facilitator. Ken is a former investment banker, venture capital adviser and an aerobatic pilot but now has his feet firmly on the ground on his mission to raise awareness of energy and how it can be used to drive exceptional health outcomes.

	NES SCREEN	QUESTION	DESCRIPTION	HOW TO READ THE SCAN
	Energy Source	How well are you sourcing beneficial energy?	Energy sources from the environment can power up your body like a battery for a supercharged state of health that can transform your life. With these tools, you can double or even triple your energy. With enough energy, the possibilities become limitless. E.g. Your diet, hydration, light, sleep, movement?	1. Look for PURPLE DOTS first (5), and then the information on the right to understand what it is telling you. Look for ORANGE dots second (4).
	Energetic Drivers	How strong are your emotional & creative energies, and how well is energy being driven?	The energy of each organ or system has a particular energetic pattern and "feel" to it. We can look at the strength of our emotional and creative energies in relation to these Driver fields. There are 16 Energetic Drivers. E.g. Heart, Liver, Spleen, Circulation	
	Energetic Flow	How well is well is energy flowing through these organs?	The 12 Energetic Integrators, together form a comprehensive communication network that directs the flow of energy and information around the body (instantaneously) ensuring that every bit of the body knows what it's doing and that information arrives. The Integrators match with the twelve main meridians in Traditional Chinese Medicine, the energy channels that follow specific routes through the body, E.g. Large Intestine, Bladder, Kidney	2. The NES scan reflects your energy interpretation, at the moment of your scan, your energetic body may self correct, but it may not. In this case, running another scan in a week or so will help you interpret what specific actions are likely to give you the highest return.
	Mind Body	How well is your mind integrated?	The mind is the part of us that represents awareness and has two fundamental aspects: The part we rely on in our day to day activities and associated with thoughts, intellect, reasoning, beliefs, values, memories, conditional emotions. This is the dominant part in most people and conditions how we act and behave. The second aspect only reveals itself when the conditional mind is quiet.	
	Energetic Terrains	Where in your immune system need support?	The 16 Energetic Terrain (ET) fields form part of the human body-field and have many functions including. Providing healing messages for self repair of body tissues. Forming an important part of the body's 'energetic immune system'. The NES ET report reveals where the body's ET fields require assistance in restoring their integrity through the use of the ET Infoceuticals.	3. If you choose to self direct your next steps, you will benefit from more than one scan. NES permits you to run a scan 1 x per 5 days.
	Energetic Stars	What combinations of Infoceuticals look like resonating with your body?	The body provides itself with mini information networks which function as subsystems of the more complex Big Body-Field and act as metabolic pathways governing energy usage. These subsystems are known as Energetic Stars.	
	Energetic Rejuvenators	Where is energy being blocked from flowing freely?	Where is energy blocked? The Energetic Rejuvenators (ER) screen indicates specific anatomical points on the body where there are energetic blocks. The colour of the dots indicates the relative priority, with red/purple being the highest priority. Clicking on a reading will display the corresponding help file containing details of the anatomical location of the priority point, the body-mind association and how to use the miHealth to clear energetic blocks and promote rejuvenation of that area. Theenergyclinic can help you understand how to use the miHealth, but it is not provided as part of theenergyclinic's services specifically	4. If you chose to have your scan interpreted by a practitioner, a significant amount of time will be spent correlating how you feel with what shows up in the scan, which will lead to a much higher probability protocol, much earlier on.
	Environment	What environmental toxins have left an energetic marker?	Damage to the body field by environmental factor can severely disrupt the functions of the Energetic Drivers and Energetic Integrators and thus the regulation and functions of the physical body. By correcting the energetic damage the body field can operate correctly and the physical body will respond. If the physical toxins are present, by correcting the energetic distortions, the toxins are exposed and tend to be excreted from the body.	
	Nutrition	Nutrition: How well are you assimilating, absorbing and managing nutrients?	Vitamins, minerals and other nutrients are fundamental requirements for the body to function. Optimum health requires that nutrients are managed correctly. Through the use of the NES Infoceuticals and correction of the Body-Field the body can begin to utilise the nutrients it gains from food in the proper way, correcting nutritional issues.	5. Chose from 19 Infoceuticals from the Feel Good Range
	Recommendations	What recommendations would a practitioner discuss with you?	The Recommendation screen still reflects what a practitioner would be suggesting to you. However, "Active" Account holders, may still purchase non-prescription NES health Infoceuticals. See the 19 Feel Good Infoceuticals which are available without prescription.	

What are Feel Good Infoceuticals?

19 Non-Prescription proprietary liquid remedies encoded with bio-information designed to correct imbalances of our Body-Field – the energetic blueprint of our physical body.

THE BENEFITS

- Correct Body-Field distortions to support the body's functions to help maintain optimal wellness.
- May induce an immediate sense of wellbeing and vitality.
- May experience more dreams and a greater sense of personal insight.
- May stimulate positive shifts in the specific physical and emotional issues you are addressing.

Why the Feel Goods?

They are 19 Infoceuticals that are available for purchase without prescription. If you are enjoying the Lifetime Unlimited Scans account without engaging a practitioner, formally, then you are able to self direct using the software, and any one or more of the Feel Good infoceuticals.

How to Choose the Feel Goods

Use the table overleaf to understand the purpose for each of the Feel Goods. If one resonates with you try that one. Otherwise, if your scan shows any one of the Infoceuticals as purple or orange, then the suggestion is that you could benefit from those Infoceuticals. They are designed to make you feel good, potentially as a first aid even without scan as support.

How to Use the Feel Goods

There is little risk of the feel goods making you feel bad, nevertheless, the standard directions are to take 15 drops as needed in a small glass of water, or under the tongue.

Next Steps

- 1) What does your scan suggest
- 2) Are there any Feel Goods that are purple (5 dots) or orange (4 dots)
- 3) Order from the shop
- 4) If you need any further help contact The Energy Clinic for a bespoke protocol
