

## Requirements for new Icons

- Icons representing different documents, consisting of a «file» and «file content»
- «File» Background Image representing a file (the same for all icons), example:

- «File Content» (new design required):

- Issue Management 📌
- Change Management 📄
- Release Notes 📝
- FMEA (Risk Management) ⚡
- Schematics ⚡
- PCB 🏠
- Checklist 📋
- Project Management Plan 📅
- Assembly Instructions 📖

Example of an icon  
(A file including content)

Schematics

- New Design for the lego brick icons (also representing «File Content»)
  - Same design style like the icons you design for above files content (color, etc) 🟣 🟢 🔵
  - But in form of lego bricks (in 3 different colors/styles to show different layers of specifications and corresponding verification documents) 🟡 🟢 🟣
