

- 

With video presentations from a variety of local and international speakers.

August 1-3 - Symposium

August 4 - Advanced seminar with Brandon Brock

**page 2.**

### **WEEKEND THEMES -**

- Heavily case-based so you can see the work 'in action'.
- Build the concepts
- Festival atmosphere - a celebration of functional neurology.
- A diverse group of passionate professionals.
- Aa variety of speakers and formats
- Personalised content - from beginners who want to know the what, the how and where to go next, to the experienced practitioner of functional neurology.

### **What's NEW this year!**

- Full three day symposium - be there early for a 9AM start with Brandon!
- A great mix of content, networking, application, embedded learning and fun.
- Spacious new Venue at the Rydges with a whole floor for out neuro festival, a 400 capacity - get in quick, a relaxing outdoor area with a terraced area, garden and the (neuronal) pool.
- Sponsored cocktail event for delegates.
- Multi-room experience - come visit the Corpus Colosseum, Globus Palace, The Thalamus room.
- Case studies from local clinicians
- Videos from popular international speakers - to be announced

**page 3.**

## **“OUR AIM IS TO PROVIDE A FUN, ENGAGING SYMPOSIUM WITH GREAT CONTENT”**

- \* work out where you're at, and where you CAN go.
- \* enjoy an entertaining guide through some of the history, concepts and application of this work.
- \* gain insight into the exponentially growing field of traumatic brain injury and concussion. exponentially.
- \* Enjoy case presentations that may appear miraculous.
- \* see the nuts and bolts that make it real - get the insiders information

## **CONFERENCE THEMES**

- \* cutting-edge content
- \* comfortable venue with great chill out zones,
- \* This symposium will be heavily case-based
- \* Application
- \* Basic science and content
- \* A variety of speakers and styles to embed the learning
- \* A brain - friendly social experience for all.

Day 1.

***“I want to make this as accessible to everyone, by taking the basics and make them understandable” Brandon Brock***

We enter our 6th year of conferences moving from strength to strength. We can now offer multiple streams, from beginner (the amazing Brandon Brock will deliver a 2-3 hour introduction tailored specifically to the beginner), while local clinicians present cases. Today is a must do and see, we suggest you take advantage of the beautiful hotel and get the early flight in. After a delicious lunch, Brandon presents to the whole audience, with a heavy case based emphasis. Now over to our local speakers who will expand on concepts of TBI, mood and concussion.

Day 2.

***“I want to SHOW you WHAT you can look at, and teach you what it means” Brandon Brock***

Here's where we up the pace, with Brandon Brock continuing from yesterday supported by popular speakers Christabelle Yeoh and Trent Banks. More content, cases and speakers as we come together in the 'Corpus Colosseum'. Plenty of space by the neuronal pool. Or come check out the sponsors.

What to look at and why. How to think about what we do. To be inspired and amazed by the concepts and details demonstrated in case studies.

Day 3.

***“Application!” Brandon Brock***

We bring it all together with great speakers and content in a variety of presentations that will engage the beginner and the expert.

Monday Morning applications.

Clinical gems

Reflect on your goals, achievements and what you can incorporate as you proceed on the journey.

**Magic Monday.**

This will be Brandon's choice of material and will be a change of topic to fire up some new neural networks. It is absolutely guaranteed to please, Brandon is a very popular speaker internationally and can carry any audience and topic.

There will be a limited amount of space for an intimate day.

Recommended for those with 150+ hours of CI training.
