Copyright and Use of your logo

Upon purchase, the client (you) will acquire joint copyright of the images purchased, and may use them for both online and offline publishing, (which includes merchandising, signage, and packaging) .

Wigmin Designs reserves the right to use this logo as an example of work to be used as part of an online portfolio, and printed material to advertise Wigmin Designs.

This logo is provided in orange and blue format only.
Other colour combinations can be provided on request, and may be subject to further charges.

It is recommended that stretching of the fixed size JPG and PNG files to make larger or smaller images should not be attempted as it will affect image quality. Please use the raw files to generate images of different sizes. If you do not have access to the relevant software to do this, Wigmin Designs are happy to create images of any size on request at the time of purchasing – this is included in your purchase cost. Requests after 2 weeks of the purchase will be subject to further charges.

Thank you for choosing Wigmin Designs

I appreciate the faith you have shown in choosing my design to represent your company.
If you should require any further graphic design work in the future then please consider me.

My website is www.wigmin.co.uk
