Stong Dry Carpet manufactures low moisture counter rotating brush machines and chemicals which have been in the US market for the last 10 years.

Low moisture carpet cleaning is the cleaning method of the future and Strong Dry Carpet is here to provide you with the best and most advanced cleaning technology the market has to offer. Strong Dry Carpet strives to provide the highest quality craftsmanship and best customer service possible every day, with every customer and every product we provide.

You have my personal guarantee that if you, as a Strong Dry Carpet customer, are not satisfied in anyway, we'll make it right for you! That is a 100% guarantee of customer satisfaction. We always welcome any ideas you may have that can make us even better. Please feel free to email me at [marcus@strongdrycarpet.com](mailto:marcus@strongdrycarpet.com).

Thank you for your trust and confidence in our business.

Sincerely,

Marcus Wendt  
General Manager , Strong Dry Carpet

### TESTIMONIALS

#### Testimonios

"I would like to thank you for both your professionalism and knowledge in helping me with the purchase of the TM-4 machine and encapsulation F1000. As someone who cleaned with hot water extraction, I can say that my customers are very impressed with the appearance of their carpets. So far every customer I have cleaned has insisted on taking my business cards for referrals which is very much appreciated! My last job was an office building and I performed the dry extraction on the traffic areas. When I checked in with the office manager the next day, she said that the carpets have not looked that good in years. I cleaned her home last Saturday. I would not hesitate to recommend your products to anyone. Thank you!"

Sam Negrón  
Brite Life Carpet Cleaning  
Owner

"I recently had a Host Rep. at my home to demonstrate their equipment and product. I vacuumed my carpets slowly for around 20 mins before he started his demo, he also vacuumed with his Host machine for another 10 mins. After vacuuming, he put the Host compound on my carpet, and continued to vacuum it out with his machine. When he was finished, he showed me the compound, hair, and carpet fuzz that he had extracted from my carpets. After he showed me that, I took my CRB machine, and went behind his Host machine, to compare the two. When I finished, I showed him that both of my collector trays on my machine were full of the Host compound, hair, and carpet fuzz. When I did this, he became very angry, and called me a liar. He asked me if I put the dirt he pulled out with his machine, into my trays. I told him no, and dumped my trays, rinsed them with water, and filled the bottoms of the trays with the Host compound and carpet fuzz a second time. He was then very impressed, and decided to follow me to an appointment with a customer to see the machine work more. I told him I use the new Strong Dry Carpet machine. He left me a lot of the Host compound to use, and literature to read."
