The Estate Flagpole

The **Estate Flagpole** is designed for home landscaping, tailgating, RVing, government and business use. The patented, inter-locking sleeve system allows for quick and simple raising and lowering. The hard anodized finish is maintenance free, with all stainless steel hardware to prevent rust. This makes our telescoping flagpole maintenance free.

Landscaping

Do you like to change your landscaping? Do you have a winter and summer home? The Estate Telescoping Flagpole is easy to move. All you need is an extra ground sleeve and you can relocate your flagpole with ease. Easy 30 minutes installation by concreting in a 24 inch ground sleeve.

Made in U.S.A

City government, veterans, memorial gardens, youth leagues and more can display their pride as a tribute for all to see with an Avenue to Flags.

Why the Estate Flagpole?

The estate flagpole inventor was one of the pioneers of the telescoping flagpole industry. The latest in flagpole technology makes it simple for businesses to display their colors.

It offers the simplest most durable system you will find. A major improvement is the quick and simple inter-locking sleeve system that makes flying your flag faster and easier than before.

Accessories

Wheel Stand

Hitch Mount

Dock Mount

Wall Mount

Solar Light

Base Collar

The best way to display your pride is by flying your colors on the Estate Telescoping Flagpole

The Estate Telescoping Flagpole has high strength aluminum 6061 series with T6 temper. The 3/4" gauge laser cut aluminum gives the flagpole a sleek, modern, curved appearance. Our flagpoles have an architectural hard anodized finish.

Pole Sizes

- 16ft. pole (2.5 in. base diameter)
- 22ft. pole (3 in. base diameter)
- 25ft. pole (3 in. base diameter)

I liked how you had this part in red. See how that looks if not keep it all white
