

## WHAT IS AAGT?

---

- ◆ The **Association for the Advancement of Gestalt Therapy** is a dynamic experiment; an inclusive, energetic, non-profit, volunteer organization committed to supporting the professional and personal associating of all persons interested in the advancement of the theory, philosophy, practice and research of Gestalt Therapy and its various applications.
- ◆ The membership determines the course of the organization, based on the belief that we can create and recreate ourselves as our needs and interests emerge.
- ◆ Our membership is multicultural, diverse and international and includes counselors, organizational consultants, psychiatrists, nurses, psychologists, social workers, students, educators, artists, writers, psychotherapists and organizations.
- ◆ **AAGT** holds an annual meeting and periodic regional events. We stage an international conference biennially featuring peer-reviewed presentations, plenaries, process groups and community meetings.
