

Thank you for all the designs received so far. I really wanted to promote the fact that we provide a dedicated service to the construction industry & remote areas.

As many of our clients have heaps of papers on their desks I was hoping for a design that would stand out. The reason for this is that if our card was left on a desk amongst other papers & our client needed our services in a hurry they could see it quickly.

Visual impact is important, I would also like to see the words SECURITY in larger font & bold & the words CONSTRUCTION SITE & REMOTE AREAS should also stand out.

The SPAAL logo is not part of our logo & should be smaller & placed away from our Company logo or even left off & placed in text such as "member of the Security Providers Association of Australia Ltd"

95% of the designs are very similar to our existing design & I was hoping for a design that stood out.
