

Employment

Work Assessment Sites

Sample Supports provides a variety of community sites to accurately assess a client's work abilities including:

- Local Coffee Shop
- Office/Administrative Work
- Production Environment
- Wildlife Rescue
- Vending Machine
- Lawn Maintenance

Community Job Placement

Clients who are capable of maintaining quality competitive employment can benefit from working with a coach to locate jobs, attend job fairs, and find successful employment in the community.

Job Coaching

A job coach can help identify issues at work, problem solve, and assist with teaching valuable skills needed for successful employment.

Employment Skill Development

Sample Supports offers an agency-developed, specialized 12 week training program that is tailored to the needs of the client.

Client Supports

Integrated Treatment Plans

Clients are offered careful monitoring of their needs and skills before and during services. Staff is then able to provide the supports necessary to increase independence in the work place, day program, or other social situations.

Behavioral Supports

Clients are eligible for behavioral supports and treatment plans by receiving clinical supervision from one of our Licensed Social Workers. Comprehensive planning and coaching can help identify barriers to successful employment and corresponding coping skills that build appropriate behaviors.

Agency-Sponsored Activities

Quarterly activities are offered outside of day program or work hours that provide opportunities to build friendships and have fun. This also offers free respite to families and providers.

SLS Services

Mentorship

Mentors with Sample Supports promote self-advocacy of clients through direct and specific instructional methods that include modeling, providing guidance, and assistance with participating in community events of the client's choice.

Respite

Respite is provided by trained Sample Supports providers. Respite is provided in the client's home or the private residence of an approved provider. We typically provide respite in conjunction with other SLS services

Enhanced Homemaker

Providers assist with training individuals on how to live as independently as possible, including household cleaning, cooking, and home maintenance.

Personal Care

Providers assist in coordinating and attending medical appointments, grocery shopping and life needs. Our providers can also assist with finances, and help clients to set and maintain a budget to increase money management skills.

Residential Services

Host Homes

Sample Supports offers community based residential service options for adults. There are typically less than three individuals living together in a host home environment. We carefully screen our providers and complete an extensive matching process to help determine the best setting for the client. Various settings include:

- Living with a single companion
- Living in client-owned setting
- Living with a couple and/or family
- Family Caregiver Option

Supported Apartment Program (PCA Model)

Intended for clients that want to live independently but need extra support to do so responsibly.

- Daily Staff Availability
- Mental Health Treatment
- Behavior Counseling
- Specialized Day Program
- Specialized Job Coaching
- Medical Oversight
- Intensive Case Management

Work Crew/Day Program

- 30 Hour Weekly Program
- Small Group Programming
- Incentive-based Program
- Individualized Programming
- 1:1 Services Offered
- Selection of Work Sites
- Volunteer Opportunities
- Site-based Classes

Supported Employment Crews

Clients on a Medicaid waiver that are not ready for or interested in independent employment are eligible for placement on one of our work crews, where they earn wages while receiving skilled supervision. We have developed "in-house" crews to provide dynamic programming options to keep our clients engaged and motivated to work.

Crew Opportunities Include:

- Lawn Maintenance
- Office Cleaning
- Packaging/Production
- Vending Machines
