

*Building Abilities ~ Creating Opportunities ~ Developing Relationships*

## **Residential Services**

Sample Supports focuses on independence while supporting our providers and clients. As an agency we address any mental health issues in addition to behavioral needs. We are a small and stable agency based out of Longmont providing Residential, Day Program, Employment and SLS services to individuals throughout the Front Range. Our size and philosophy allows us to give extra time and attention to those receiving services. In addition, our agency offers competitive contracts to providers for the quality work that they do with their clients.

**Host Homes** ~ Sample Supports offers community based residential service options for adults. There are typically 1–3 individuals living together in a host home environment. We carefully screen our providers and complete an extensive matching process to determine the best setting for the client. Various settings include:

- Living with a single companion
- Living in a client-owned setting
- Living with a couple and/or family

**Family Caregiver** ~ Sample Supports offers employment for families who would like to provide care to their developmentally disabled family member. This allows the individual to stay in the family home and still receive services. Family Caregivers will receive the same support from our agency as Host Home Providers. There is also the opportunity for our agency to provide employees to come into the home should this option be needed.

### **Services offered to Host Home Providers and Family Caregivers**

- **Residential** - Sample Supports offers 24/7 access to a residential worker. Monthly meetings with providers to discuss any concerns or needs and the client's team will receive corresponding monthly updates.
- **Financial** - Sample Supports works with Social Security and Medicaid to make sure all clients are receiving the best resources possible. Sample Supports also provides rep payee services to help manage the client's finances if needed.
- **Medical** - Sample Supports has a contract with PDC pharmacy which provides an on-call pharmacist and next day medication delivery. In addition, we contract with several nurses in the area that are an available resource.
- **Community Activities** - Clients are invited to attend fun and entertaining activities throughout the year. These activities are funded by Sample Supports and engage the clients in their communities while also offering respite to families and providers.
- **Training** – Sample Supports provides in-house initial and ongoing training to contract and respite providers. We provide State-mandated trainings as well as individualized training on client-specific needs.
- **Behavioral** – We offer all clients an integrated plan that addressing both mental health and behavioral needs. Clients are also eligible for clinical and behavioral supports and treatment plans by working with one of our Licensed Clinicians for any additional behavioral counseling needs.
