

CLOUD COLLABORATION: WHAT'S IN IT FOR YOUR BUSINESS?

With the rise of the remote workforce, mobile devices & the general speed with which society is moving, the need for cloud collaboration in business is critical. Here's **5 ways** migrating your business to cloud technologies can boost your productivity & take the headache out of collaboration.

CLOUD COLLABORATION:

REDUCES TRAVEL TIME

Remove travel time for you, your employees & your clients by utilising online communication tools like Skype or Google Hangouts.

TAKES THE CONFUSION OUT OF DOCUMENT COLLABORATION

Reduce email clutter & multiple document versions by working on documents hosted in the cloud through Google Docs or Microsoft 365.

STREAMLINES YOUR BUSINESS SYSTEMS

Host your core business systems like Customer Relationship Management, Project Management & Accounting in the cloud, easily accessible by you, your employees & your trusted business advisers.

SIMPLIFIES COMMUNICATION

Keep your communication outside your inbox & in one place online in a communication tool or project management software. That way everyone stays up to date including your employees & your clients.

= HAPPY ENGAGED CLIENTS/CUSTOMERS

Invite your customers & clients into your hosted Project Management Suite. Keep them up to date with every detail of the project. They become more engaged in the process & you can produce quality services & products for them.
