DIVING TABLE ROCK LAKE

Table Rock Lake has about 52,300 surface acres, a shoreline over 850 miles long and a maximum depth of over 200 ft. Visibility is generally best in the spring with an average of 20 to 40 ft. below thermocline at 30 foot. The surface temperature peaks at 85° in summer and 65° below thermocline.

★ JAKE'S POINT: N 36° 37.485', W. 93° 20.120'

Jakes Point Island is a multi level dive suitable for any level of diver. Max. dept is 130 feet. Their is a 30 ft. cabin cruiser stuck in 35 feet of water directly under GPS coordinates. This site is known for very large Bass.

★ DUCK ISLAND: N 36° 35' 5.47", W. 93° 19'14.59"

Duck Island is right next to the Showboat. This is a shallow dive with large rock formations and very large schools of fish. Great for all levels of divers. Max. depth recommended for 40 ft.

★ BREEZY POINT: N 36° 33.208', W 93° 18.375'

Located 1 mile south of Table Rock Dam. A nice vertical drop-off with some shallow ledges and interesting rock overhangs. This is a popular spot for boaters and cliff jumpers, so, keep and eye out for lost stuff!

★ THE SADDLE: N 36° 33.208', West of 93° 18.375'

Adjacent to Breezy Point. This underwater ridge starts at Breezy Point and continues east across the main channel at depths approaching 90 ft. The ridge is narrow in spots with visible drop-offs on either side. Topographically unique and visually stunning.

★ ZEBULON PIKE: N 36° 37.859', W. 93° 20.146'

Just north of Jake's Point island. Boat wreck dive. This 90 ft. long, double-decker excursion boat lies in 75-95 ft. of water. Find the guideline 15 ft. near shore and follow it down to the boat. A fun dive for more experienced divers. Take a light.

★ ENCHANTED FOREST: (South End) N. 36° 938', West of 93° 19.128' (North End) N. 36° 37.248', W. 93° 19.238'

This site is a rock bluff about 1/2 mile north of the dam. Descend to 65-80 ft. and find yourself at the base of a grove of large moss-covered oak trees, some of which break the surface. The silhouettes of the trees against the ambient light above produces a beautiful visual effect. Lots of fish around 15 ft. along the ledge which extends from shoreline about 20 ft. A must-see dive site!
