STYLE

The kitchen is the heart and soul of a home.

Whether it's the hub of creative cuisine, a place for friends to gather or a nexus for the family to grow up around, your kitchen is the focal point of your home. That's why it's important to have a quality, stylish and long-lasting surface as the showpiece of your space.

Flexible seamless design, earthy, natural colours, contemporary style - a Satinera™ solid surface benchtop has all the right ingredients to create a stunning kitchen.

BEAUTIFUL

Made from natural minerals and high-performance acrylic, Satinera™ is a revolutionary material that is non-porous, resisting stains and bacteria so perfect for kitchen benchtops. Satinera™ can be formed in almost any shape seamlessly, is long lasting and renewable, so the surface can be repaired if need be.

DURABLE The natural strength of Satinera™ solid surface makes it a hardwearing surface tough enough to stand up to the everyday realities of a busy home. Yet its elasticity means that it's more forgiving on your breakables. This incredibly durable material is also heat and stain resistant and with proper care will outlast almost any other type of kitchen benchtop.

RENEWABLE Unlike most other benchtop material, Satinera™ solid surface can be renewed. Chips, dents or scratches can be cut out and filled restoring your benchtop to its original condition. No need to replace it, simply call the repair man who will come to your home and restore your benchtop to its former beauty. How's that for peace of mind?

FLEXIBLE DuPont™ Satinera™ is one of the most flexible and versatile materials available today which means the design possibilities for your kitchen are endless. Why settle for conventional benchtops with straight lines and hard edges when Satinera™ can be bent and sculpted into flowing curves and rounded corners.

SEAMLESS Satinera™ solid surfaces are joined together using a special adhesion process which means there are no open cracks or joints in your kitchen benchtop. This not only makes the area much easier to clean but creates a seamless continuous flow across your kitchen benchtop.

HYGIENIC Satinera™ is non-porous which means that bacteria, mould and liquids cannot penetrate the surface leaving a cleaner and healthier kitchen benchtop. And the signature seamless design and fully integrated sinks means there are no crevices to trap dirt and old food reducing the areas for germs to breed.

Everyday wear and tear, including light scratching, may be exhibited. Scratching is not considered a product defect and hence not covered by the DuPont 10-year warranty.

BEAUTIFUL

Change the line breaks and/or font size of the intro para because the word “revolutionary” is too close to the edge.

NATURAL COLOURS

To ensure your colour selections are right for your home, you can order a free 50mm colour chip by visiting www.dupontsatinera.com.au/colour-chip/.

				
Satin White	Snow Drift	Coconut		
				
Riverstone	Caramel	Sand	Autumn	Coral

Satinera™ solid surface is created for a lifetime of easy care.

Good looks combined with functionality are the core of a versatile kitchen. Not only does a kitchen boasting Satinera™ look sleek and stylish, its nature makes it ideal to handle everyday use.

For every day care, simply wipe the surface with a damp cloth or sponge.

To ensure your colour selections are right for your home, request a 50mm colour chip at any Masters store or order online from www.dupontsatinera.com.au/colour-chip/.

CREATIVE

DuPont™ Satinera™ is one of the most flexible and versatile materials available.

With a Satinera™ solid surface, the design possibilities for your kitchen are endless so you can use your imagination to create a kitchen design unique to you.

“To ensure your colour selections are right for your home, request a 50mm colour chip at any Masters store or order online from www.dupontsatinera.com.au/colour-chip/.”

I’ve attached a larger version of this image – please replace.

SEAMLESS

Satinera™ moulded kitchen sinks can be seamlessly installed into your benchtop to create one smooth, continuous surface.

Made of 100% acrylic, Satinera™ sinks are durable, visually impressive, and resistant to stains and scratches.

With their curved lines and no undesirable open joints, these high performance sinks are more hygienic than traditional sinks and make cleaning a breeze.

Choose from the oversized single basin (Model SB958) or the double basin with half sink (Model SB971). All Satinera™ sinks come with a pop up plug and if you would like draining grooves next to your sink, they can be machined into your kitchen benchtop.

Request a Sink Fact Sheet from a Masters Kitchen representative or download it from www.dupontsatinera.com.au.

DuPont™ Satinera™ is available in 2 profile options - 38mm and 65mm (shown here).

DURABLE

Satinera™ solid surfaces are practical.

The contemporary finishes and amazing versatility of a Satinera™ solid surface benchtop create stunning yet practical kitchens that will serve you for years to come.

Your investment in a DuPont™ Satinera™ solid surface benchtop includes design, measurement and pricing, template production, benchtop fabrication, installation and finishing. Also included is DuPont's 10 year warranty, a Satinera™ solid surface bread/serving board and repair piece for future renewing.
