

Yoga Web Based UI

Priit Vimberg, CEO
priit.vimberg@yogasystems.com

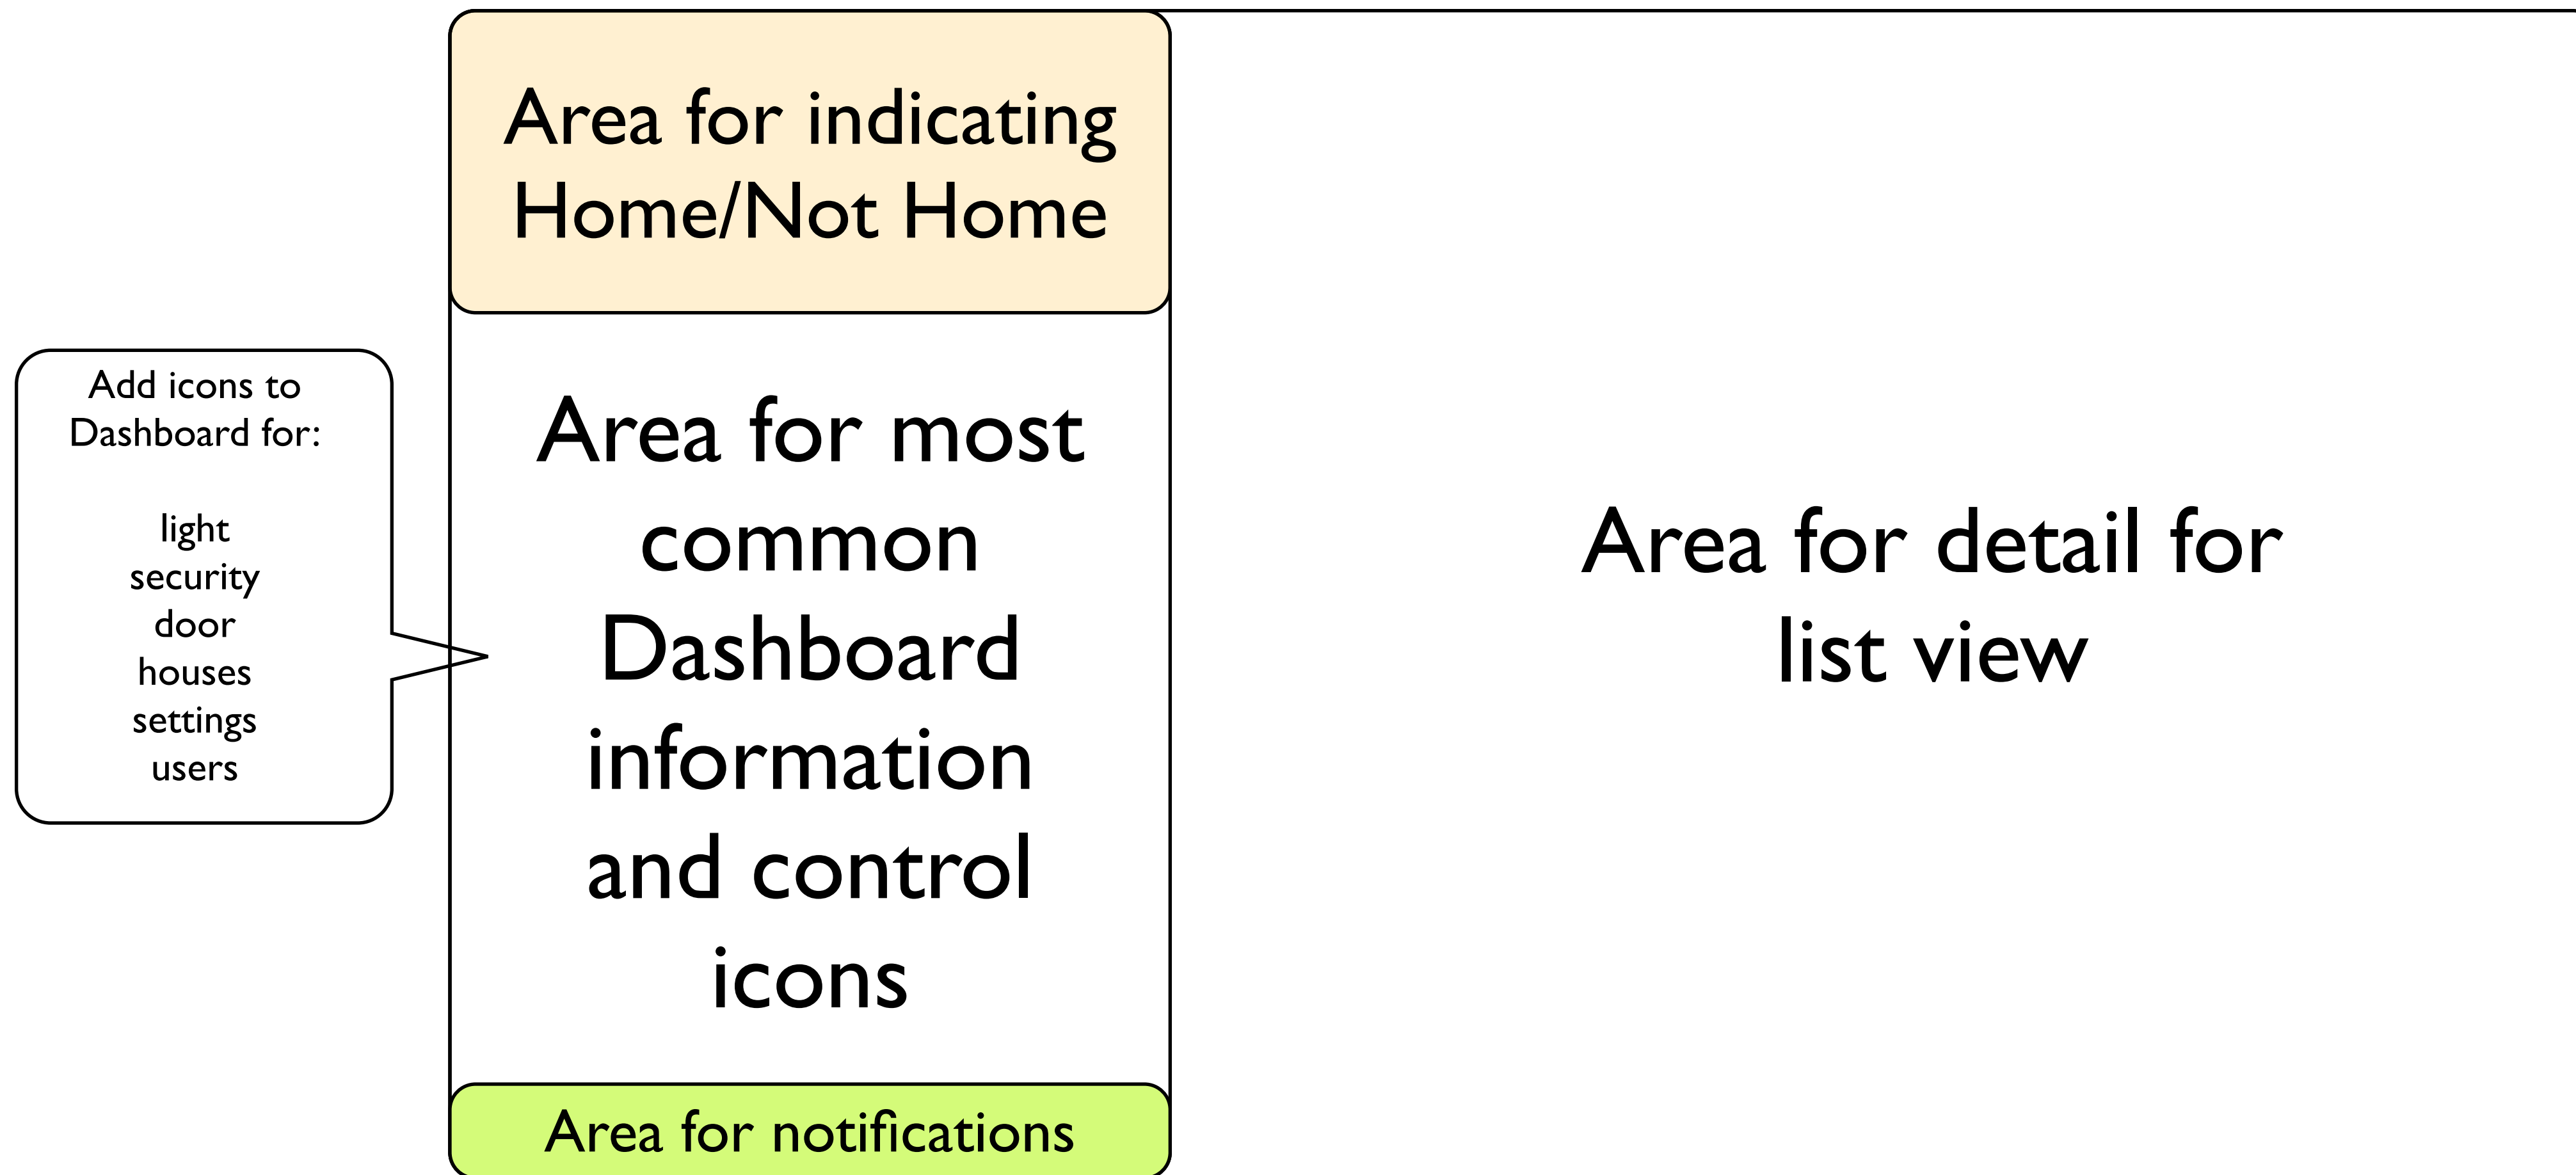

Requirements

- User Interfaces (UI) should be usable in Smart Phone, Tablet/PC
- It should be a Tablet App-like interface with two sides, which both can be used in phone in separate views.
- Visible area and functionality shown should grow in with the growth of screen resolution
- It should be as less clicks as possible to use

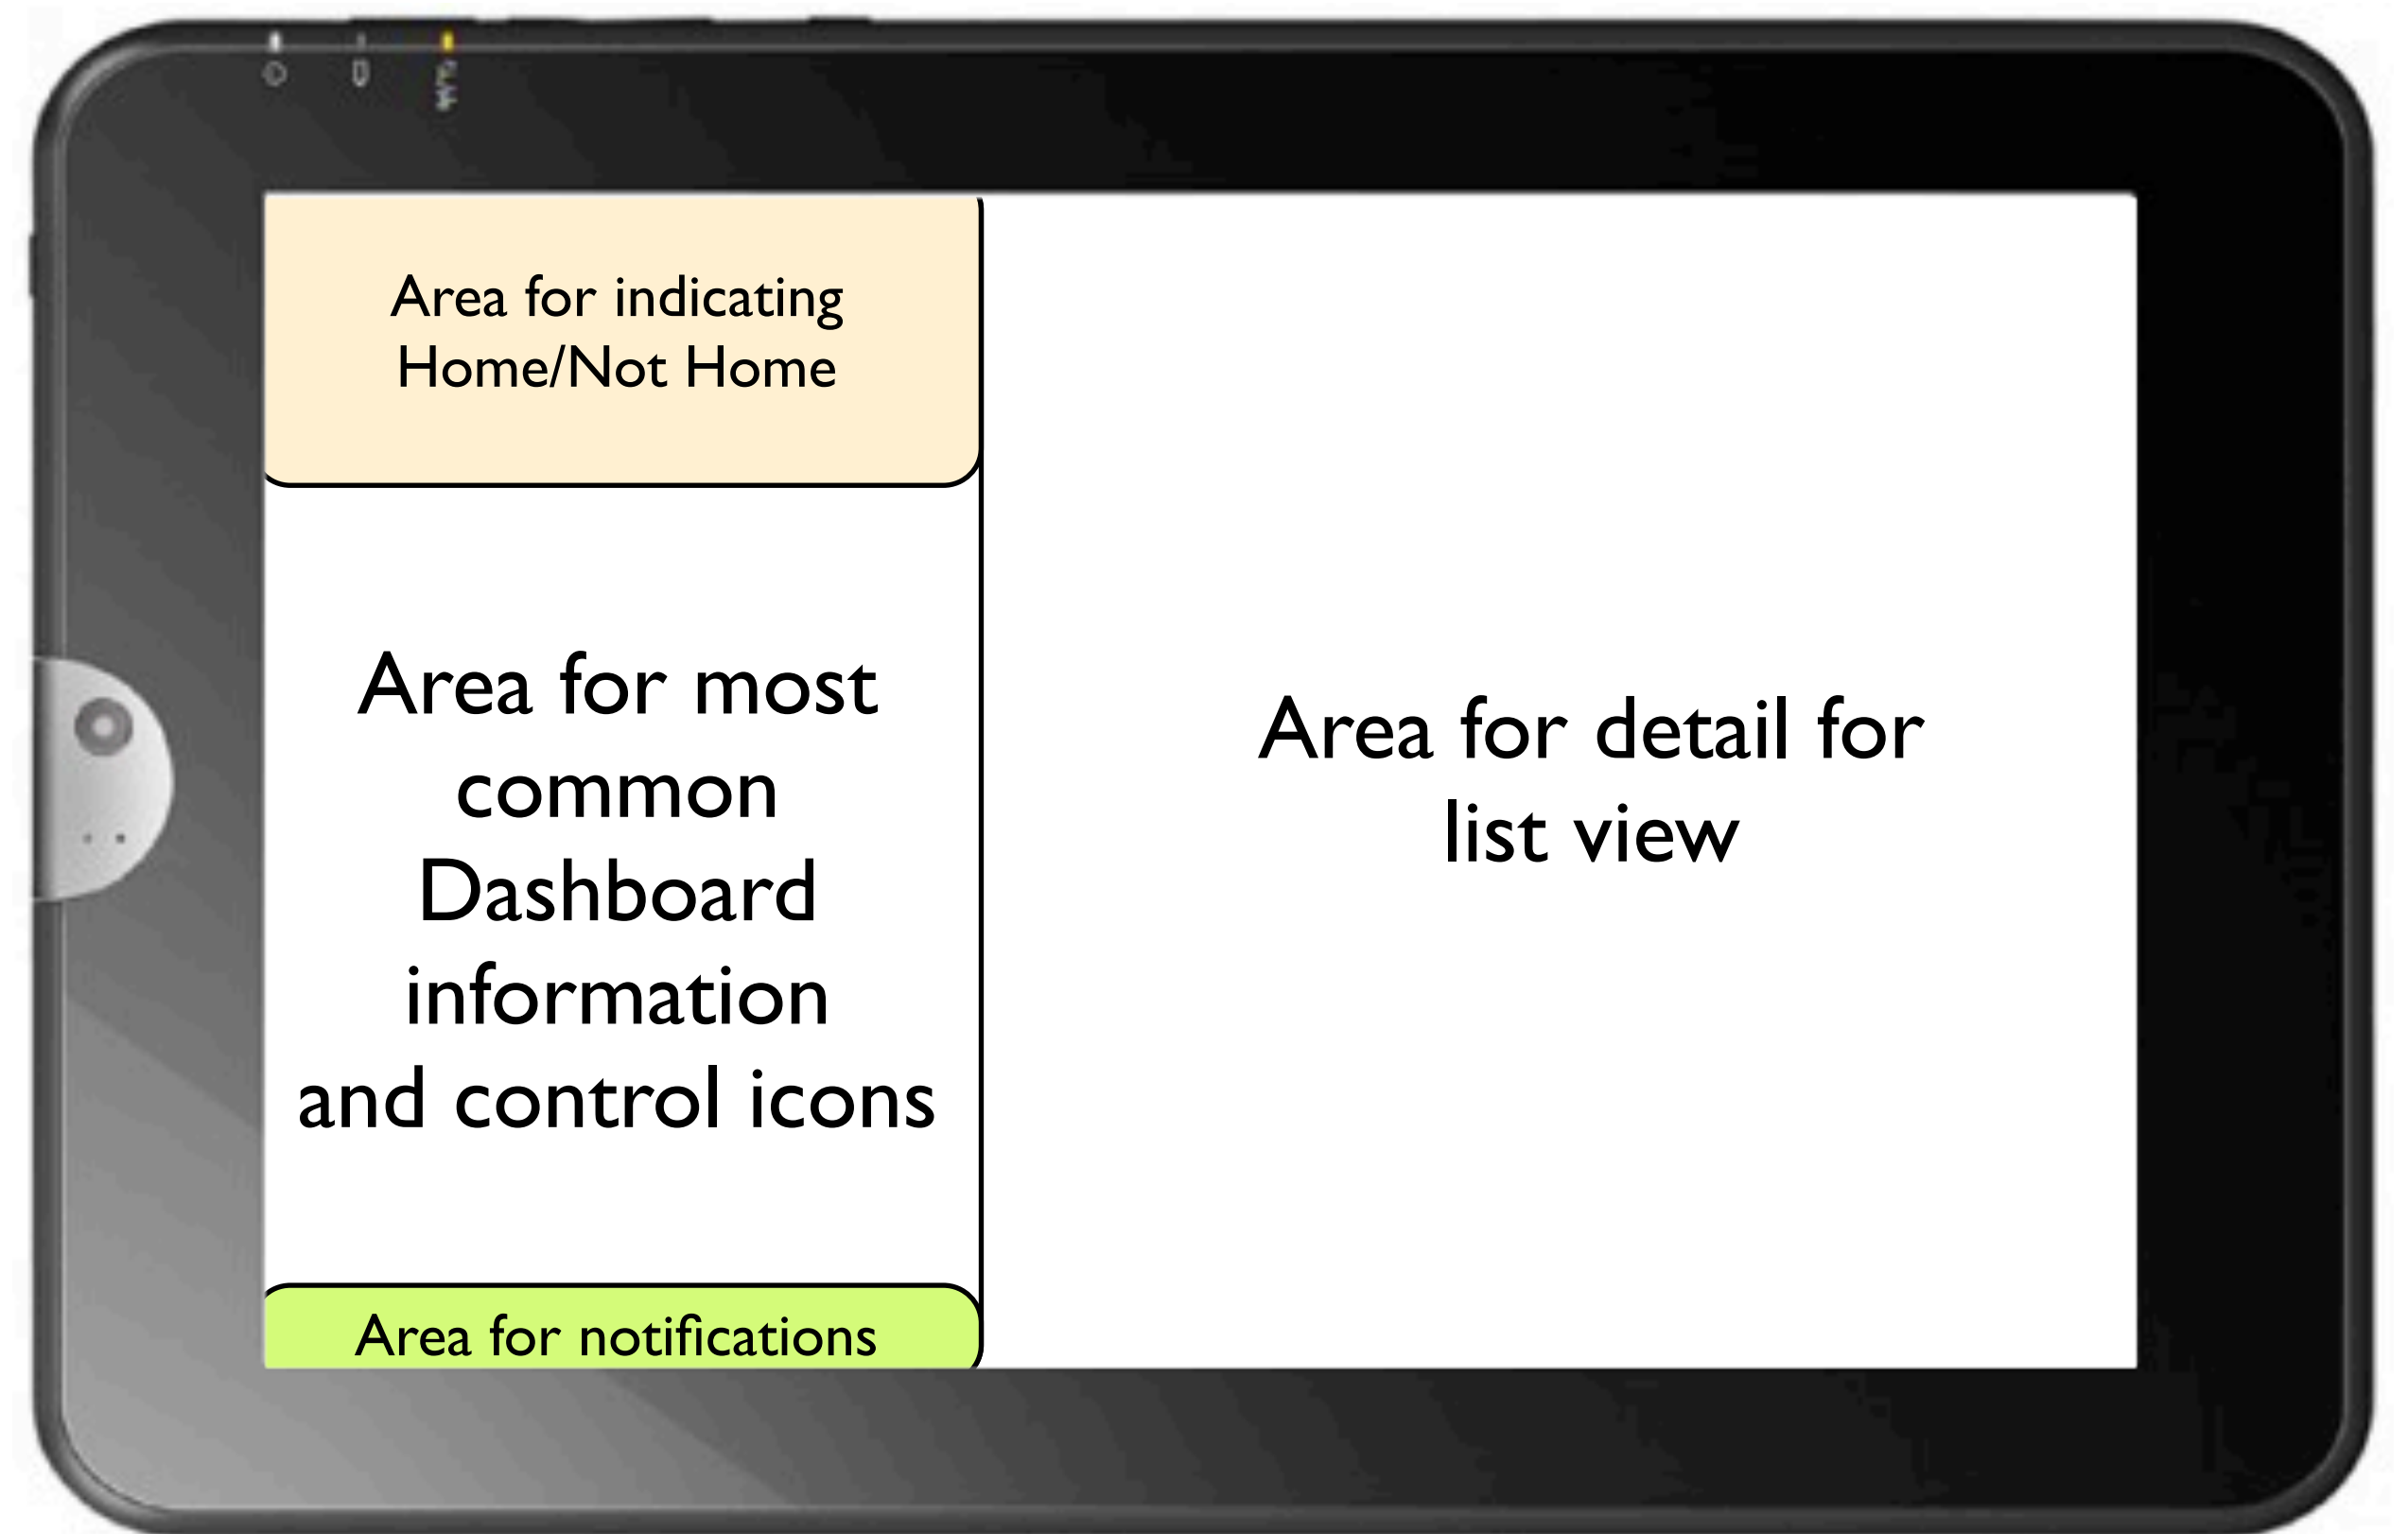

Main Framework

Sample UI Framework Elements

Sample in Tablet and PC
