

Hello there,

My name is Gabriel.

Nice to connect with you :)

I need a fanpage cover with matching profile pic...

The graphic will have an angel holding a trumpet (I will give you this graphic for reference)

He should be as high as possible in the image, without wings being cut off.

Then, on the bottom there will be 3 images / head shots of people...

Each head shot must be cropped and placed inside the "just say no" sign/circle.

Sample circle:

Then, each 'say no' image is to be placed inside a goat, 1 goat per image. Not all images inside one goat... **and then, fire around the goats.** Please don't use A picture of a real life goat, use something like a drawing, or something cartoony... Get creative :)

Order of pics: first Obama, then the Pope, then Joel Osteen.

Feel free to replace any of the images with similar images that convey same message, but perhaps look best with your art work. For the angel image, if you use a different angel, just make sure that the horn he is holding is not to his lips. Thanks!

Text to be used:

**Say No To Goats.**

**Dile No A Los Cabrones.**

Position this text anywhere where it makes sense, but not at the level where the angel is. Anywhere below is cool.

This image must portray that...

The angel is in a holy place and filled with divine light, and that he's about to deliver a very important message to those who inhabit the earth, which includes the goats who dwell inside the fire.

Perhaps we can put the angel "inside" the universe... this universe looks cool:

-- so we'd have the angel enlighten by the universe, while the goats burn down below, in the darkness. Just an idea... get creative!

Thanks so much for your time and God Bless You!

With Love,  
Gabriel

PS: it would be best if you could create a "test" facebook fanpage to install your design, so I can see exactly how it's going to look installed.

**PS #2!** Chosen designer is guaranteed another design, for another fp cover, for higher pay.

Also, in the page below are the dimensions for the cover... im NOT sure if this is 100% correct. So please checkout facebook to make sure these dimensions are still current.
