

What about making the world a better place?

Coromandel is looking for great designers.

...Who? since November 2012 Coromandel is the new online shop for stylish sustainable clothes.

...What? Be part of our project! For our clothing line we are looking for creative and inspiring people who can surprise us with unique motifs for our shirts.

...How? We think a sustainable attitude should be expressed. That is why all motifs should deal with pressing sustainable topics like climate change, poverty, extinction of species, consumerism, injustice etc.

...and why? if your motif makes it into our shop you can not only make the world a better place. You can also relax and kick back, because we will take care of the rest and pay you 1,50 € for every product sold which features your motif.
