The Basics of Addiction Counseling Desk Reference and Study Guide, Tenth Edition

This series of manuals has aided many addiction professionals in attaining their state and national credentials with its thorough and easy to understand descriptions of counseling concepts. The Basics can also be used as a quick reference tool for clinicians to use throughout their careers.

Module I: Pharmacology of Psychoactive Substance Use, Abuse, and Dependence

This module outlines the pharmacological effects of each substance of abuse, drug interactions, and treatment considerations.

Module II: Addiction Counseling Theories, Practices, and Skills

This module addresses issues critical to clinicians and includes descriptions of individual counseling theories, family therapy, group therapy, and multicultural considerations.

Module III: Ethical and Professional Issues in Addiction Counseling

This module provides a detailed explanation of the NAADAC Code of Ethics, with examples, application questions, and case studies to augment understanding.

Enhance your learning

By ordering the Independent Study Examination that supplements each module. Successful completion of these exams earn up to 42 CE's (between 12 and 16 CE's per exam) and help prepare for key concentration areas found on state and national certification exams.

Single Independent Study Exam

\$25 for members; \$35 for non-members

Integrating Treatment for Co-occurring Disorders: An Introduction to What Every Addiction Counselor Needs to Know

This manual is a skill-based training program that will help addiction counselors improve their ability to assist clients who have co-occurring disorders, within their scope of practice. This educational program is designed for those who do not have a significant background with co-occurring disorders and discusses the many myths related to mental illness treatment, barriers to assessing and treating co-occurring disorders, relevant research and prevalence data, commonly encountered mental disorders, applicable screening and assessment instruments and issues surrounding medication management and coordinating with other mental health professionals. Through the use of case studies, video clips and interactive exercises, participants will feel more comfortable and competent in addressing mental health issues with clients who have co-occurring disorders.

Manual Only: \$75 for members; \$125 for non-members

Independent Study pricing to \$110 for members; \$175 for non-members

Independent Study Course w/Manual and Exam (6 CE's): \$110 for members; \$175 for non-members

The Addiction Professional's Guide to Screening, Brief Intervention, and Referral to Treatment (SBIRT)

Provides an introduction to promising, feasible approaches to implementing evidence-based alcohol screening and brief intervention (SBI) methods in therapeutic settings. This manual outlines how to ask clients about their drinking habits, enhance internal motivation to change their behavior if identified to be at risk using Motivational Interviewing and cognitive-behavioral strategies and support clients in behavior change or treatment seeking goals by conducting follow-up and referrals. By reading this manual, you will walk-away better understanding SBIRT, how it impacts the addiction professional and how to use it in your practice.

Manual Only: \$35 for members; \$50 for non-members

Independent Study Course w/Manual and Exam (6 CE's): \$60 for members; \$85 for non-members

Clinical Supervision of Alcohol and Drug Counselors

This independent study course guides the learner through the text, a workbook of learning exercises, and assignments designed to provide insight into the theory and methods of clinical supervision.

Independent Study Course w/ Exam and Manual (15 CE's) : \$90 for members \$150 for non-members
