

SUMMER IS HERE

REDUCE THE TEMPERATURE IN YOUR CAR 10 DEGREES COOLER

Your car will be 10 degrees cooler with the Protector Solar+ Windscreen
(in comparison with a standard replacement windscreen)

High-Impact Laminated
for your Family's safety

Blocks 99% of Harmful Ultra Violet Rays

Sunlight's ultraviolet rays are proven to contribute to sunburn, skin cancer and retinal damage. **Protector Solar + Windscreens** protect your family and the interior of your vehicle from the damage caused by UV rays.

Comfort through Heat Reduction

The revolutionary 'S-Lec' film in **Protector Solar + Windscreens** reduces the heat in the interior of your vehicle by 10 degrees celcius. The vehicle's steering wheel, dashboard and seats are considerably cooler to the touch. The **Protector Solar + Windscreen** drastically reduces transmission of Infra-red rays.

Environmentally Friendly

Protector Solar + Windscreens reduces vehicle running costs by lessening the demand on your engine & cooling system

Only available through Protector Glass Industries
and their authorised stockists.

PROTECTING YOUR FAMILY
