

Build at the *Next Level*™

Service Features and Benefits

SPEED

We understand time constraints and realize that sometimes business is won or lost because of them. Our streamlined processes provide you with a functional, accurate product in days, not weeks or months.

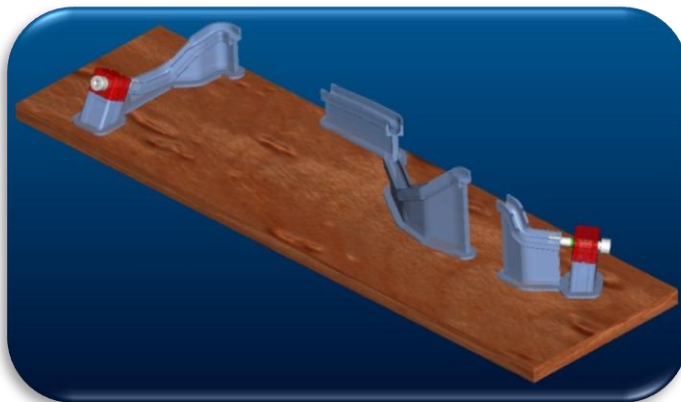

INNOVATION

Our designers have years of practical manufacturing experience in a variety of fields. This results in real solutions for you.

ACCURACY

Our DDM (Direct Digital Manufacturing) technology provides measurable, accurate results.

Full Contour

Zero Tolerance "L" Style with Pins

Full Contour
With end Details

Meridian 3D Technologies is an engineering firm specializing in but not limited to the design and manufacture of bend check and production check fixtures for the tube and hose industry. Utilizing state of the art 3D printing technology, M3D can produce fixtures in as little as five business days. Our durable fixtures are more accurate than layouts and cost less than traditional wood or composite fixtures. Combining these with a reduced lead time gives you the edge on the competition allowing you to Build at the **NEXT LEVEL**™.
