

Brand Color Palette

Brand Guidelines
July 2014

The Integrated Healthcare Association color palette reinforces the organization's brand. The primary palette incorporates the existing logo colors, turquoise and warm grey. The secondary palette incorporates a color scheme to enhance and extend the primary logo colors, and to create a clean, open, and contemporary feel consistent with the organization's goals. Secondary palette colors reinforce the connection with the primary logo colors and work across various media.

The secondary palette composed of vibrant accent colors provides a sense of vibrancy and sophistication to enhance the organization's brand.

PRIMARY PALETTE
