

Office Address | Business Cards

Front

Back

Temporary Business Card. Feedback? I will need to work on logo to make certain it prints clearly. This is all the stuff that someone experienced in web and program technology can do with ease, like a Robb Dorr. Depending on way we go, we can potentially have a back printed too.

Info needed:

- Exact way you would like your name spelled **James B. Catledge**
- Exact title (i.e., VP, Distribution or VP of Distribution) **CEO**
- Exact Cell Number 702-608-7670

Will not be able to print until we have agreed upon address and we have mail box #

Carlsbad postal annex in Bressi Ranch off of Palomar Airport Road. <http://www.postalannex.com/location/8008>

Search Skore

2647 Gateway Rd Ste # 105-240 (This is ACTUAL and working address for us now. mailbox # is 240.)

Carlsbad, California 92009-1757 (not necessary to use these 4 numbers)

To Discuss

- Very important: Do we step out as Search Skore without resolution of Search Control and iSkore conflict?
 - Need to discuss potential legal ramifications
- The # 324 in above address refers to actual mailbox number. This is mandatory by post office. They think if we put “Office 324” that would be sufficient.
- Simple form requiring two forms of ID required (DL and Insurance is fine)
- \$70 to start
 - \$10 setup fee/key
 - Key can be duplicated
 - \$20/month with a 3 month minimum (payment of \$60 is necessary)
- New address form must be filled out at post office (He was not certain of this. He was certain that a forwarding address would be needed if changing from an existing address to this new PO)
- Chuck Barton Title- “VP of Distribution”
- Should we place tech info on card? yes
 - www.searchskore.com
 - jcatledge@searchskore.com
- Phone? **each persons cell phone**
 - 1-800-SKORE IT (Great idea, Chuck!)
 - Vonage
 - Google Voice- **my cell # is a GOOGLE VOICE #**
- If we all decide to do this, I can throw together a temporary card and see about printing it digitally and on time for ReachLocal meeting. I could also have just a few printed at Staples and let them know we are in build mode.
- Cost of Printing
 - Credit Card with code on back
