

RS - Caliper

In Line Inspection System

EnviroCal RS Caliper tools provide multiple sensors, feature orientation position, solid-state memory, high collapsibility and precise identification of geometric anomalies such as dents, ovalities. RS Caliper inspection results are available and ready for reviewing just minutes after removal from receiver.

The RS Caliper tools are quick and simple to deploy without the need for additional support

“Now you have a new choice”

Technical Information

- 35 % collapsibility
- 4 Odometer Wheels
- Bi Directional Capable
- Multi channel
- Built in Transmitter
- 150+ miles range
- 12 bit data
- Solid State memory
- 75+ hour inspection time
- 1.5D back to back bends
- Zero - 10 mph run velocity
