

We operate on a strict ethical basis and here are some very important core values that **Healthy Loans** promotes:

You will have access to a skilled and experienced banking professional who works for you. Not the bank's shareholders.

We will liaise with your Accountant, Financial Planner or Solicitor to ensure the loan structure meets your requirements.

We will consider products from a range of lenders and source the right options before making our recommendations to you.

You can have a long term relationship with us. We want to help you achieve your financial goals now and into the future.

- Commercial property loans
- Business / goodwill loans

As a Doctor you have access to our unique Car Buying Service to help save you time and money when you are buying a new car. All at no cost to you.

This is how it works. You provide us the details of the vehicle you are going to buy. We will arrange to have various local dealerships submit a tender for your new car. We then give you the contact details for the dealership that submitted the best price and you complete the transaction. A simple service that can save you a lot of time and money and remove the need to negotiate.

Healthy Loans specialise in loans. In fact it's all we do.

We take the time to understand your objectives when it comes to borrowing money and use our experience to structure a loan that meets your requirements.

We do this by listening to you and choosing the most appropriate solution from a large range of lenders from whom we can access.

We will negotiate with the lenders to make sure you are paying the lowest possible interest rates and fees.

Never assume that your bank will give you the best deal. We have over 30 years' experience and we know how to negotiate to get you the best possible outcome.

Now could be the perfect time for you to refinance your loans which might save you lots of money. We do all the work for you, so why not make a start. **Contact us now.**
