ACCURATE, RELIABLE TRAVEL BOOKING DATA DIRECTLY FROM THE SUPPLIER

Concur® Connect travel suppliers offer exclusive access to inventory and services otherwise unavailable through traditional travel programs. They also deliver complete electronic folio data directly from airlines, hotels and car rental companies in the form of e-receipts that automatically upload directly into the expense report. These e-receipts contain the entire transaction record. So, you know that the information is accurate, and manual itemization is the thing of the past.
