Do you have a Static Manned  
Security Guard?

We can cut your monthly costs by  
more than half !

## Our Promise

We are so confident  
of our staff we are  
proud to be the only  
Security provider to  
make this promise:

**EVERY CLAMP WE FIT**

**WE PAY  
THE OWNER  
OF THE  
LAND**

**£25**

If your premises are  
subject to any  
theft, damage or loss  
whilst we are on duty,  
we pay the costs.

# Welcome to Moran Security & Parking Ltd

Our aim is to more than half your monthly costs of having a security guard and offer a 100% more reliable and effective guarding system.

Moran Security & Parking specialise in a revolutionary new type of CCTV and motion sensor detection system that is guaranteed not to have false alarms and as more and more customers are opting for this system with proven and guaranteed results it will more than halve your monthly security bill from having a security guard.

Combined with our guaranteed low response time after installation, which starts at £690.00, you could be paying as little as £200.00 a month as to £3,500 upwards.

This system has been tried and tested on several types of site, and in larger sites where there has been only one guard it has proved very effective, and you have to ask yourself the big security question...

**'Am I 100% sure my security guard doesn't have cat naps or even longer periods of sleep?'**

Are you tired of your alarm going off  
and being called out in the middle of  
the night?

Or your security company taking  
longer than  
20 minutes to arrive?

The first is very basic; we hold a set of keys for your premises. If your alarm is activated your alarm company will contact us, 24 hours a day 7 days a week to attend your site. Source the cause of the activation and reset the alarm.

We boast a maximum 20 minute response time. We don't charge per call out, we charge a small monthly fee which covers unlimited monthly call outs and man time on site.

Our low response times have even attracted the likes of 'Doncaster Robin Hood Airport.

The second type is where we have installed a CCTV or wireless entry system for you and it is monitored by our staff from our Sheffield based control room.

The perks of us monitoring your system for you is that our mobile dog handler will visit your site regardless of activation during the night to show a physical presence in the area free of charge.

The fact we have this service in operation is why we can boast very low response times, as low as 5-10 minutes in certain areas.

## Moran Security & Parking offer total Car Park Management Solutions

We are almost certain that most businesses in the country will have suffered from Illegal and nuisance parking, people using your private parking spaces and land. Spaces intended for staff, visitors and above all customers and clients.

This can be more than just an irritation as it can lead to embarrassment and result in lost business especially if frustrated customers cannot find a place to park. We at Moran Security & Parking understand this frustration and a large percentage of us have in fact experienced it along with the inconvenience and cost of illegal and nuisance parkers. Don't despair, we have the solution.

Phone us for more information of how Wheel clamping & parking tickets work. Despite all the recent bad publicity surrounding wheel clamping, Moran Security & Parking is fully licensed and insured to carry out such activities.

**EVERY CLAMP WE FIT  
WE PAY THE OWNER OF THE LAND**
