# SAFETY INFORMATION

## WARNING

- Risk of fire or electric shock. LED light installation requires knowledge of luminaire electrical systems. If not qualified, do not attempt to install. Contact a qualified electrician.
- Disconnect power at fuse or circuit breaker before installing or servicing.
- No user serviceable parts inside. To avoid electrical shock, do not disassemble product.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
- Installers should not disconnect existing wires from lampholder terminals to make new connections at lampholder terminals. Instead, installers should cut existing lampholder leads away from the lampholder and make new electrical connections to lampholder leads by employing applicable connectors.

## CAUTION

- Turn power off before inspection, installation or removal.
- Use only on 120 V AC, 60 Hz circuits.
- This device complies with Part 15 of the FCC rules and has been tested and found to comply with the limits for a Class B digital device. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed or used in accordance with the instructions may cause harmful interference to radio communications.
