Defence, ITAR & EAR Training Controls from a non-U.S. Perspective Training

Brisbane	16 & 17 March
Sydney	18 & 19 March
Canberra	20 & 23 March
Melbourne	24 & 25 March
Adelaide	26 & 27 March

*"Excellent structure and
style of presentation."*

*"Excellent...best U.S
export controls training
I have attended."*

*"Practical workshops
were fantastic."*

*"Excellent presenter
and coordination."*

*"Very informative, well
presented course."*

U.S. Export Controls are some of the most complex and stringent in the world. The U.S. Government regulates the transfer of U.S. origin goods and technical data throughout the world, with the intent of preventing unauthorised transfer of technology and know-how. These controls extend world-wide and can impact anyone dealing in U.S. controlled goods or technology.

This two-day comprehensive course will give applicants a greater understanding of U.S. Export Controls from a non-U.S. perspective in practical and relevant terms.
