

Looking for a similar design as jot image attached, this is a clear front but we want it printed not see through. The box will look like the m8 h&c box attached. This is a concept design and we don't need print ready boxes just a realistic concept of the front and back of the box and the products inside the box.

Box size will be the same size, but inserts will be different.

1. Flash Flood (Diagram 1)
2. Liquid Sapphire (Diagram 2)
3. Titanium (Diagram 2)

Design
