

HELP A CHILD WITH ATTENTION DEFICIT DISORDER TODAY! ¹¹

If your child has been diagnosed with attention deficit disorder, Chiropractic may be able to help. Interference caused by pressure upon the spinal nerves can send confusing signals across the nervous system. This can result in a shortened attention span and, at times, hyperactivity. A thorough Chiropractic examination can reveal the cause of the problem. The natural approach of Chiropractic and proper nutrition can be very successful in correcting this condition.

Our mission in Chiropractic is to help people who are tired of just covering up their pain by taking drugs. We can't reach everyone personally to tell them that Chiropractic may be the answer to their problem. Let's both offer a helping hand. Refer those you know who could benefit from our care and we will offer our honest and sincere assistance. Give this certificate to someone who we can help together through Chiropractic.

**THIS GIFT CERTIFICATE IS VALID FOR 2 WEEKS AND ENTITLES THE BEARER
