

HELP SOMEONE WHO HAS ELBOW OR SHOULDER PAIN TODAY! ⁹

You may be suffering from shoulder pain needlessly. Pain in your shoulder can be caused by an injury or inflammation to the joint, muscle, bursa or tendon. For example, "tennis elbow" is the term used to describe inflammation of an elbow tendon. Elbow and shoulder pain can also be caused by misaligned vertebrae in your neck that can pinch the nerve that goes to your arm. Chiropractic care can be successful in relieving and correcting these painful and disabling conditions.

Our mission in Chiropractic is to help people who are tired of just covering up their pain by taking drugs. We can't reach everyone personally to tell them that Chiropractic may be the answer to their problem. Let's both offer a helping hand. Refer those you know who could benefit from our care and we will offer our honest and sincere assistance. Give this certificate to someone who we can help together through Chiropractic.
