12 Regular condoms

Sax condoms are individually electronically tested for quality. Sax Regular are lubricated (non spermicidal) 53mm nominal width straight shafted condoms with a reservoir tip. Single use only. All Sax condoms are made in accordance with international standard ISO 4074:2002.

Correct use of Sax condoms will help reduce the risk of sexually transmitted diseases such as AIDS and also pregnancy. Please read enclosed instructions carefully.

Store in a cool, dry place away from direct sunlight.

Please dispose of used condoms thoughtfully. Non flushable.
