**FRIDAY, MAY 1 • 5:30 PM: Registration Desk Opens**

**8:00-8:30PM: Rehabilitation of Common**

**Ankle & Foot Injuries: Build a Strong Foundation: 2.5 CEU**

white purple

**Dr. Morgan Mullican & Dr. Jeffrey Lewin**

Foot and ankle injuries are extremely common among athletes and other active individuals. Rehabilitation programs must emphasize the use of therapeutic exercise to restore joint range of motion, muscle strength, neuromuscular coordination and gait mechanics. When managing injuries for the foot and ankle it is important to consider factors such as biomechanics, footwear and supports such as orthotics and kinesiotaping. Rehabilitation programs will be discussed with hands on workshops and clinical pearls for ankle sprains, plantar fasciitis and Achilles tendonitis.

Session sponsored by Performance Health.

Will send Performance Health Logo.

**SATURDAY, MAY 2 • Registration Desk Opens**

**8:00-8:45PM: Special Early Bird Session: Alliance Partner Roundtable**

Meet our world class Alliance Partners and learn about the products and services they have developed to grow your practice.

**9:00-10:30AM: The Future of Reimbursement: EHR, ICD-10, Big Data & Beyond: 1.5 CEUs**

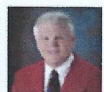

**Dr. Morgan Mullican & Dr. Jeffrey Lewin**

Chiropractic reimbursement will be radically transformed in the next two years. The increased use of electronic health records combined with the new ICD-10 code set and new payment models will rock the world of reimbursement. The future of how much you get paid will be based on your ability to coordinate care between healthcare providers, master outcome measurements and quality reporting to third party payers. Learn to use these trends to your advantage and control your reimbursement destiny

**10:30-11:00AM: Break. Take this opportunity to visit our Alliance Partners in our Exhibition Hall.**

**11:00AM-12:30PM: Foot Pronation & Imaging: What's It All About? Part I: 1.5 CEUs**

**Dr. Morgan Mullican & Dr. Jeffrey Lewin**
