

HAVE A DESIGN ALREADY CREATED?

Upload a complete design file, preview your design (front & back) and approve. We will do the rest.

MAKE IT WORK!

You've spent a lot of time and effort creating the business card design and layout you want. We want to ensure what you have designed is what you will receive.

SAFE ZONE:

Text and other design elements must be placed within the safe zone. Placing them directly next to or outside the safe zone will likely result in the possibility of them being trimmed off in production.

TRIM:

The Trim represents the finished product size and what will be contained within it.

FULL BLEED:

To ensure your background image covers the entire design space without leaving a white border, make sure your design fully extends to the full bleed boundary.
