

"I was skeptical walking into the SUPES Academy and was unsure whether this program had anything to offer an experienced administrator. I was blown away by the depth of material and the level of support the instructors provide. The instructors' goal is to give you the skills you need to walk into any district level position with eyes wide open. The program focused on development in three main areas: superintendent skills, philosophy refinement and practical job attainment skills. If you are considering a move to a district office position in the next five years I highly recommend this program."
